2003 *Marine Corps Gazette* Index

In this issue, as in every December issue for the past 24 years, we are publishing our annual index—a listing by subject and author of the articles, and by book author of the reviews published over the past year. Similar indexes were published in 1966–79 but occasionally appeared in the January rather than December issues. This will mark our fifth year of indexing web site-only articles as well. We commend these indexes to your attention as they are a guide to the many articles of lasting value that have been published in the *Gazette* over the past 38 years.

Most letters are not indexed. As a matter of editorial policy, we almost always publish reactions to an article 3 MONTHS AFTER THE ARTICLE PUBLICATION. Although this delay is undesirable, it allows time for most of the readers to respond and enables us to consolidate their reactions. We also continue to index selected news items in an attempt to provide you with more opportunities to review *Gazette* information.
